SUPPLEMENTARY INFORMATION:

Title: e-Services Registration TIN Matching - Application and Screens for TIN Matching Interactive.

OMB Number: 1545-1823.

Abstract: E-services is a system which will permit the Internal Revenue Services to electronically communicate with third party users to support electronic filing and resolve tax administration issues for practitioners, payers, states and Department of Education Contractors. Registration is required to authenticate users that plan to access e-services products. This system is a necessary outgrowth of advanced information and communication technologies. TIN Matching is one of the products available through e-Services offered via the internet and accessible through the irs.gov Website. TIN Matching allows a payer, or their authorized agent, who is required to file information returns for income subject to backup withholding to match TIN/Name combinations through interactive and bulk sessions. It is necessary for payers to apply online to use TIN Matching, and the information requested in the application process is used to validate them systemically as payers of the correct types of income.

Current Actions: This Notice is corrected to reflect the paperwork burden previously approved by OMB. This form is being submitted for renewal purposes only.

Type of Review: Extension of a currently approved collection.

Affected Public: Businesses and other for-profit organizations and not-for-profit institutions.
